

Determining Cohorts for Writing and History-Government 2009-2016 Rev.6.30.09

READING THE CHART: First, read across the school year row until you reach the cell that identifies the student's current classification. Then, read down the column to determine if that class will be included in a cohort.

In general, students who are freshman in August of an even numbered year will be part of the writing and history-government cohorts as juniors and seniors. Caution: Grade reclassification can impact inclusion in or exclusion from a cohort group.
