"Standard-Based Education For Students With Severe/Profound Disabilities? YES We Can!"

Facilitated by: Kathy Staugler — Educational Consultant

October 30, 2014
9:00 AM - 3:00 PM
Keystone Learning Service
500 E. Sunflower Blvd.
Ozawkie, KS 66070

Reserved for KIC Region: 1 & 3

Who Should Attend? This session is designed for educators, related service providers, and administrators.

What Is It? The education of students with severe/profound disabilities has been challenged by current mandates that ALL students must be receiving instruction within grade-level curriculum aligned to appropriate content standards. Very little has been presented in research to clearly identify the instructional RATIONALE, instructional STRATEGIES or instructional IDEAS that are most appropriate for students with severe/profound disabilities. This workshop will present the rationale, strategies and ideas to make learning meaningful for this population of students.

Outcomes
Participants will:
• identify and practice a process for engaging students with severe/profound disabilities in meaningful learning tasks.
• recognize the rationale for including students of all abilities within standards based learning tasks.
• recognize strategies for adapting learning tasks to meet the identified needs of students with severe/profound disabilities.
