

THE SPECIAL EDITION

THIS MONTH

We are excited to welcome 2025 and another year of possibilities. Keystone employs amazing team members who go above and beyond every day for our students. The support we are able to provide to our students is only possible due to our strong relationships with our districts and board members. We all play an integral part as we work to make progress each and every day.

At our January Board Meeting, the Keystone Board demonstrated their strong support by providing an additional day of pay to our paraeducators due to the inclement weather. Paraeducators will be paid for 3 unplanned school closure days for the 2024-2025 school year. If you have any questions or concerns regarding this, please do not hesitate to reach out to the business office.

Keystone Administration

SPOTLIGHT

We are excited to announce that Aimee Ralph has been selected as the KASEA (Kansas Association of Special Education Administrators) SPED Professional of the year. Aimee will be honored at this year's KASEA Winter Conference. Congratulations, Aimee! We appreciate your commitment to our students and your support for other special education staff.
